CLEAR WINDOW REVIEW

OCTOBER 2014

✕ Mega Window Companies ✕

“BUY TODAY AND SAVE!” OH REALLY?

SmartSunGlass

Dear Clear Window Tech,

Our Great Room is much more comfortable with the High Performance Lo-E 366 Glass. We are finally able to enjoy our Great Room on a sunny day! Thank You!!

- S.Williams

A client of ours had received 2 quotes from two heavily advertised window companies for 21 windows for over \$30,000...but! They were told, if they buy today, they could get the price down to \$28,000. That's still \$1300 per window and That's Crazy!

These Mega companies spend millions annually on advertising which adds to the cost of their windows.

We're a small family owned company with 31 years in the industry. We never use high pressure sales tricks and with our low overhead we can install high-efficiency windows and doors for thousands less.
